

LACHLAN WEBB

Product Lead / Technical Product Manager

Sydney, Australia | lachlanwebb123@gmail.com | github.com/greenbookwebb

PROFILE

Product Lead / Technical Product Manager with experience owning student-facing, partner-facing, and infrastructure products across education technology, digital credentials, Web3 infrastructure, AI/Web3 products, and DeFi. Combines product ownership with hands-on technical execution: PRDs, user flows, API assumptions, engineering sprint planning, analytics, launch plans, and internal tooling/prototypes. Strong fit for general product and tech-product roles where technical infrastructure depth is a bonus.

PROFESSIONAL EXPERIENCE

Product Lead / Technical Product Manager | OpenCampus (Animoca Brands)

Jul 2024 - Present | Remote / Australia

- Own a portfolio of student-facing, partner-facing, and infrastructure products spanning digital credential infrastructure, identity, user engagement, incentives, partner integrations, admin tooling, and blockchain infrastructure operations.
- Led product planning and cross-functional delivery for government-scale digital credential infrastructure, including the tokenisation of 10M digital credentials for undergraduate students in India.
- Responsible for product strategy and execution across PRDs, user flows, API assumptions, technical requirements, engineering sprint planning, analytics requirements, launch plans, and operational runbooks.
- Act as a hands-on technical PM, implementing internal tooling and prototypes using Python, APIs, blockchain data, indexing/querying tools, and frontend/backend patterns to unblock product and engineering decisions.
- Product owner for blockchain infrastructure operations, including vendor evaluation, RPC/indexing requirements, bridge and wallet UX, multisig workflows, environment configuration, migration planning, and legacy product deprecation.

Head of Product & Partnerships | AgentFi

Jan 2023 - Jul 2024 | Remote / Australia

- Led product strategy, technical specification, user acquisition, and protocol partnerships for an AI/Web3 DeFi product.
- Coordinated product, engineering, marketing, and partner workflows across early product development, launch planning, and growth campaigns.
- Helped run an oversubscribed NFT mint that raised approximately US\$200k and supported growth to more than US\$2M in TVL during early launch.

Financial Engineering Lead / Product Lead | Tracer DAO / Mycelium

Aug 2020 - Nov 2022 | Brisbane, Australia

- Co-designed DeFi derivatives products including Tracer Perpetual Pools v1/v2 and Perpetual Swaps, combining derivatives design, AMM mechanics, risk modelling, liquidity, and incentives.
- Helped scale Tracer Perpetual Pools to more than US\$700M in trading volume.
- Co-owned tokenomics and incentive design across liquidity mining, public auctions, treasury allocation, and market-maker/trading firm initiatives.
- Managed a team of five during major market volatility and company growth from roughly 10 to 50 people.

Research Assistant / Casual Academic | University of Queensland

2019 - 2020 | Brisbane, Australia

- Co-authored research on corporate climate-transition risk and taught finance, financial modelling, R, and Python coursework.

Commercial Analyst | Flight Centre

2016 - 2018 | Brisbane, Australia

- Worked as a pricing analyst for an online travel business, helping build trading infrastructure and contribute to revenue growth from approximately A\$100k/day to A\$1m/day.

SELECTED PRODUCT & TECHNICAL STRENGTHS

Product: Product strategy, PRDs, technical specs, user journeys, sprint planning, launch readiness, analytics, funnel tracking, stakeholder management, vendor management.

Technical: Python, JavaScript/TypeScript, React/Next.js, FastAPI, APIs, GraphQL, blockchain data analysis, indexers, RPCs, bridges, oracles, Merkle proofs, smart-contract admin workflows.

Domain: Consumer products, B2B integrations, digital credentials, identity, Web3 infrastructure, AI/Web3 products, DeFi, derivatives, tokenomics, incentives, education technology.

EDUCATION

Bachelor of Advanced Finance and Economics (Honours) | University of Queensland

2016 - 2019 | Brisbane, Australia
